

PLAYER SPONSORSHIP

North Toronto Nitros Soccer, a not-for-profit community-based organization, supports over 200 financially-disadvantaged community children by covering some or all of their registration fees and other expenses. Children in our “League-Sponsored Player” program are recommended by social service agencies and the Toronto District School Board.

A portion of all program fees supports fee subsidies. Many North Toronto Nitros Soccer families make an additional contribution and members of the community continue to sponsor players after their own children have graduated from our youth program.

The club’s costs **per player** to operate our 2020 outdoor season programs are:

- Recreational programs: average cost \$240 for each of our spring and summer seasons
- Competitive program: average cost \$1,340 for the outdoor season.
- Ontario league teams: average cost \$4,500 + for the 10-month program

To help subsidize fees for one player, please consider donating one of the following amounts:
